

Making Technology Work for You, the Administrative Leader

Presenter: Tony Vincent

February 6, 2007

8:30am - 3:30pm

At CESA #4, 923 East Garland Street, West Salem

Intended Audience

Superintendents, Principals, Curriculum Directors & Technology Coordinators

About the Presenter...

Tony Vincent has been described by *Edutopia* as a “tireless evangelist for the power of handhelds.” His specialty is using technology creatively to engage learners, including podcasting and blogging. As a former fifth-grade teacher, he started Radio WillowWeb, one of the first podcasts for and by kids. His web site is a popular destination for educators interested in improving teaching and learning with today’s digital tools. For more information on Tony, visit his web site - www.learninginhand.com.

About the Workshop...

As a classroom teacher and technology specialist, Tony Vincent propelled his school, Willowdale Elementary, to a leadership role in educational technology. Tony has valuable tips for administrators for encouraging the use of technology for teaching and learning. Experience the latest technologies like handheld computing, blogging, podcasting, and RSS. Find out how administrators can use these new tools to do their jobs and to set an example for teachers and students. Discover practical, doable, and engaging ways these new technologies and methods of communication are being used in classrooms. You’ll leave with solid examples to inspire teachers! Bring your laptop and Palm handheld if you have one because there will be plenty of hands-on activities! CESA #4 will make available a limited amount of Palm handheld computers and mobile wireless laptop computers for use during the workshop.
