Learning in Hand
with TONY VINCENT

Teacher Name(s)

Grade Level

☐ SrPreK ☐ K ☐ 1st ☐ 2nd ☐ 3rd

Lesson Objectives

After completing this lesson, students will be able to...

Content

List vocabulary words and definitions, concepts, or other information students will learn in this lesson.

FYI

Any other information Tony should know about this lesson, previous lessons, or future lessons?

Hook

Activate students' background knowledge and/or spark curiosity.

- ☐ **Photos/Videos:** Share images and movies from iPad to the projector screen.

- ☐ **KWL:** Brainstorm together what students know about a topic and what they want to learn about.

- ☐ **Polling:** Student responses are shown in simple graphs and displays using polleverywhere.com.

- ☐ **Drawings:** Students draw on an iPad and the drawings are displayed for the class to see with infuselearning.com.

- ☐ **Other:**

Instruction

Teacher presents or students investigate.

- ☐ **Website:** Content is read on the web or viewed in a video.

- ☐ **Nearpod:** Students view a teacher-lead interactive slideshow that displays on all iPads

- ☐ **Popplet:** Teacher and/or students arrange content in a mind map, which can have images and drawings.

- ☐ **Venn Diagram:** Teacher and/or students arrange text in a Venn diagram.

- ☐ **Book:** Content is found in the textbook or other books.

- ☐ **Other:**

Product

Students make something to share with an audience.

☐ **Book Creator:** Make a digital book that can contain text, images, drawings, audio recordings, and videos.
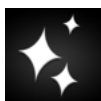

☐ **Stick Around:** Create sorting, matching, and labeling puzzles.

☐ **Explain Everything:** Create videos made by recording what you say as you draw on the screen.

☐ **Chatterpix Kids:** Add a mouth to any image and make it talk.

☐ **Videolicious:** Make a short documentary with videos and photos.

☐ **Shadow Puppet Edu:** Record one narration for a series of videos.

☐ **30hands:** Record a narration for each image in a series to create a video.

☐ **Pic Collage:** Combine images and text to make a collage or poster.

☐ **Post-it Plus:** Students draw on a sticky note and the teacher can collect and share using the app.

☐ **Other:** _____

Audience

Who is the main audience for the product?

☐ **Teacher**   ☐ **Parents**

☐ **Classmates**   ☐ **Community**

☐ **Another Class**   ☐ **Online**
